Program

The Best Value in Paint Protection on the Market!

Premier Application Process

The Auto Butler advanced polishing machine performs a two-step process with consistency and quality every time.

Step 1: Using the revolutionary Auto Butler Polisher, your paint is first polished to enhance the shine while preparing the surface for our ceramic protective coating.

Step 2: Our exclusive ceramic infused paint sealant is machine applied, molecularly bonding the ceramics to your paint, effectively shielding it from the elements.

Protect Your Investment

With the Auto Butler Premier Paint Protection II System, you can keep your vehicle's paint finish looking new for years to come.

This advanced technology in paint protection will shield your vehicle from damaging environmental hazards such as:

- Tree Sap
- Bird Droppings
- Acid Rain
- The Sun's Ultraviolet Rays

Vehicle Surface with
Auto Butler Protection

Unprotected Vehicle Surface

Acid Rain UV Rays Bird Droppings

Reapplications for Ongoing Protection

Auto Butler will send you reapplication notices inviting you to return to your dealership every 6 months, for the life of your warranty, to have your reapplication of the Premier Paint Protection II System. These reapplications will ensure your vehicle is protected and looking its best at all times.
